WHOLESALE PRICE LIST

—AND—

PRICES FOR SEEDS NOT QUOTED IN CATALOG

BLAIR, NEBR., JANUARY 15, 1920

It looks to us now that before the sowing season is over the price of some seeds will be considerably higher than we are quoting them; and some kinds hard to get. But we have a nice lot of fine seed on hand and in order to move it quickly are making the prices so you can afford to buy now and then you will have it when you get ready to sow. The following prices may remain during the sowing season but should they go up or down we will send you amount of seed your money buys. Send in your order EARLY. Should we be out of kind of seed ordered we reserve the right to cancel order or write you whether or not we shall substitute. We guarantee our seeds to please you. You can keep and test seeds bought from us 10 days and if not entirely satisfied return them and we will send back your money. That's fair. Don't you think so? But we do not and cannot guarantee a stand or a crop. The prices shown are for bushel or 100-lb quantities. If less is ordered of course we must have a little more money, but send in your order and we will fix it up so it's right.

114 Bushels of Corn

Per Acre

REID'S YELLOW DENT

Can you do as well? It depends on you. We have the seed and if you have the land and with a favorable season and proper care we think you can. Mr. Rohwer raised 100 bushels per acre from Reid's Yellow Dent seed he got from us. Mr. Hooks grew 90 bushels per acre, and we have letters from hundreds saying they grew from 75 to 80 bushels per acre from seed corn procured from us. The above parties grew these big crops before we made our latest improvement. The Reid's Yellow Dent we are offering this year is all from mother ears that produced from 100 to 114 bushels per acre. In making this improvement in our corn we paid no attention to anything except big yield, earliness and good quality. The men who are growing this corn for us report that it is about 10 days earlier than the old type of Reid's. See catalog for price.

We have a fine lot of Sweet Corn that we can offer at wholesale to parties that want to buy in full bag lots—two bushels to a bag. The prices below are for full bag lots. If less is wanted add 2 cents per lb.

STOWELL'S EVERGREEN.....	Per bu. \$4.50
GOLDEN BANTAM	\$5.00
Bags 65 cents each.
